TOWN OF AMHERST PLANNING COMMISSION
Thursday, January 2, 2020
AGENDA
REVISED

1. **Call to Order** – *Mrs. Driskill, Chair*

2. **Determination of Quorum**

3. **Citizen Comment-** *This time is provided for citizens to bring concerns or comments to the Commission that are not scheduled for a public hearing. This is not meant to be a discussion or an exchange, but rather, an opportunity for citizens to have their concerns be heard.*

4. **Approval of December 4, 2019 meeting minutes –** *The minutes of the December 4, 2019 meeting are attached.*

5. **Presentation and Discussion: Capital Improvement Plan-** *Staff will present the proposed Capital Improvement Plan to the Planning Commission for their consideration. The proposed schedule for the CIP anticipates Commission discussion for January and February with a public hearing and action on March 4, 2020.*

6. **Sign Ordinance proposals-** *The current sign ordinance precludes electronic message signs, other than time and temperature. Included in the packet are options for how these could be included in the Ordinance, if the Planning Commission would like to consider that.*

7. **Update regarding the proposed Conservation Easement from Mr. Dave McCormack**

8. **Concerns of Commissioners**

9. **Adjournment**

Town of Amherst
Planning Commission Minutes
December 4, 2019

A meeting of the Town of Amherst Planning Commission was called to order by Chairperson June Driskill in the Council Chambers of Town Hall at 174 S. Main Street at 7:00 PM on December 4, 2019.

It was noted that one seat on the Planning Commission is vacant and that a quorum was present as indicated below:

P	June Driskill	P	William Jones
A	Kevin Belcher	P	Anne Webster Day
P	Ted Finney	P	Clifford Hart

Town Manager Sara Carter and Clerk of Council Vicki Hunt, in her capacity as Secretary to the Commission, were present.

The minutes from the November 5, 2019, Commission meeting were approved on a motion by Mr. Hart, seconded by Mr. Jones, and carried 5-0-1 according to the following:

June Driskill	Aye	Clifford Hart	Aye
Kevin Belcher	Absent	Anne Webster Day	Aye
Ted Finney	Aye	William Jones	Aye

The Chair opened a duly advertised public hearing at 7:01 PM on a proposed amendment to the Town's Comprehensive Plan to change the designated land use for Tax Map parcels 96-4-A and 96-1-1-7, totaling 76+/- acres from Planned Development- Residential to Agricultural to allow a request for a conservation easement by Dave McCormack, that would, if approved by Town Council, allow land between the developed portion of the Mill Race subdivision and the Amherst Milling Company to be changed from planned development areas to conservation and would allow Mr. McCormack to complete a conservation easement process for the property.

Dave McCormack was present to speak on his request and to answer questions.

There being no one else present who wished to speak on the matter, the public hearing was closed at 7:07 PM.

After discussion, Mr. Jones made a motion that was seconded by Mr. Hart of a recommendation to Town Council for disapproval of the proposed amendment to the Town's Comprehensive Plan to change the designated land use for Tax Map parcels 96-4-A and 96-1-1-7, totaling 76+/- acres from Planned Development- Residential to Agricultural.

The motion carried 3-0-2 according to the following:

June Driskill	Aye	Clifford Hart	Aye
Kevin Belcher	Absent	Anne Webster Day	Nay
Ted Finney	Nay	William Jones	Aye

FOR APPROVAL

Town Manager Carter reported that the Town has received a request from McDonalds to consider allowance for an electronic sign which would require an amendment to Section 18.1-908.10 (6) of the Zoning Ordinance.

Mike Freeman, Owner of Freeman Enterprises, dba McDonalds of Amherst, was present to speak on his request and to answer questions.
Darren Fore from the Amherst County Planning Commission was also present.

By consensus, Town Manager Carter was instructed by the Commission to prepare a proposed amendment to Section 18.1-908.10(6) for consideration by the Commissioners at the next meeting.

There being no further business, on motion of Mr. Finney, seconded by Mr. Hart, and carried 5-0-1 the meeting adjourned at 7:26 PM.

Town of Amherst
Capital Improvement Project
Request Form

epartment/Agency: Police Department	**Justification Code:**
roject Title: Wholehouse Generator	**Priority: 1**

Description

1) The department will be in need of a wholehouse generator to keep the department operational when we have power uttages. The price includes the system and installation. This is a one time purchase.

History Associated with Request

- This is a first time request for this item. If the department has power outtage, we will be able to keep everything operable.

Impact on Future Operating Costs

The only future cost associated with The generator will run off of propane gas. There will be a yearly maintenance checkup to make sure the equipment is operating properly. The maintenance checkup is around $50.00 per year. This service will be provided by the generator company that installs the unit. Price of the gas will depend on The usage. The gas tank size will determine the cost. I estimate

Planning/Engineering	Acquisition	Contruction	Equipment	**Project Total**

Description

What is needed? Generator

History Associated with Request

What is the reason for the request? If you are requesting equipment, is the current equipment out of date, obsolete or costing too much to maintain? What are the current costs of maintaining the equipment?

Impact on Future Operating Costs

Will this request decrease or increase future costs? Are additional personnel needed to accomplish the request or at the completion of the request? If it will decrease future cost please explain how.

Cost of Project

Please break down the costs of the project as indicated in the areas under this section.
Please indicate how you propose financing for this project. Are there grants to cover the costs associated with the project? Will County funds be required? Are there leasing options associated with the project?
If the project can be broken down into phases, please provide the amount that will be needed each year for the next five years.

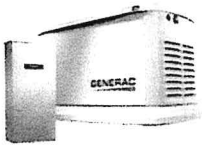
22kW Air-Cooled Standby Generator with Wi-Fi, Aluminum Enclosure, 200 SE (Model 7043-2) Proposal

22kW Air-Cooled Standby Generator with Wi-Fi, Aluminum Enclosure, 200 SE (not CUL) (Model 7043-2)

RECOMMENDED



QTY	Generac items

1 22kW Air-Cooled Standby Generator with Wi-Fi, Aluminum Enclosure, 200 SE (not CUL) (Model 7043-2)

Generac's Guardian Series generators provide the automatic backup power you need to protect your home and family during a power outage. Connected to your existing LP or natural gas fuel supply, it kicks in within seconds of sensing power loss— automatically—and runs for as long as necessary until utility power returns.

Now coming with FREE Mobile LinkTM, allowing you to monitor the status of your generator on a phone, tablet or computer from anywhere in the world. Giving you the ability to connect your account to your authorized service dealer for fast, friendly and convenient assistance.

Features & Benefits

- Mobile Link™ Remote Monitoring.
- 5-Year Limited Warranty
- True Power™ Technology delivers best-in-class power
- Generac generators and engines are Engineered and Built in the USA*
- Generac's G-Force Engines are capable of handling the rigors of generator use
- 24/7/365 Customer Support Team
- Tough, Durable All-Aluminum Enclosures
- Smart, User-Friendly Controls

*Built in the USA using domestic and foreign parts

1 Generac Smart Switch, Service Rated, 200 amps, 120/240, 1ø, NEMA 3R

1 Wet Cell Battery - 26R

QTY	Installation & Material

1 Standard Install and Material with Pad

Installation of Generator to include:
Transport and set generator on 4 inch thick preformed concrete pad.
All material to include all power wire, control wire, load management wire, conduit, fittings. liquidtight waterproof connectors, ground bars, gravel as needed.
All labor - generator wiring and setup by Generac trained technician. Includes rewiring electrical service, generator power and control, load management wirirng, Rewiring Service entrance wiring as needed.
Coordination with power company, gas company, county inspectors. County electrical permit as needed.
Does not include work or material by gas company.

Sub-Total:	$9,241.47
Sales Tax:	$361.16
Total:	$9,602.63
Down Payment:	$0.00
Balance Due:	**$9,602.63**

Generac is the #1 standby generator on the market today. CHARLOTTESVILLE GENERATORS is a factory-authorized and certified dealer, trained in the proper application, installation, and service of all Generac automatic standby generators, assuring you the highest quality service and support for your generator.

Thank you for the opportunity to offer a Generac automatic standby generator to protect your home and family during a power outage. We will contact you to answer any additional questions and finalize the details of the installation of your automatic standby generator. Please feel free to contact us at (434) 960-4384 at any time.

All quotes are valid for 30 days.

Sincerely,

Dave Dawson

I accept this proposal and wish to proceed with the purchase and installation of my Generac automatic standby generator.

Customer Ratings and Reviews

★★★★★ 5.0 /5.0 **Overall Rating**

100% **of customers recommend this dealer**

★★★★★ 5.0 /5.0 Regular servicing

DaveS **from** Louisa **State :** VA

On time, professional, answered all my questions. Great team.

★★★★★ 5.0 /5.0 Excellent, Ethical, Professional Company

Wags **from** EARLYSVILLE **State :** VA

I had my Generac whole house generator installed 5 years ago and have had outstanding reliability. It has flawlessly run during each power outage without any effort on my part. Smart Homes of Virginia competently figured my electrical needs utilizing transfer switches to provide the most economical performance. My system provides backup power to run two 2.5 ton electric heatpumps plus typical household electrical needs. I am on the annual maintenance plan and have always received exceptional and courteous service. These guys are great!

★★★★★ 5.0 /5.0 Excellent Service Provider

JackPCR **from** Mineral **State :** VA

My Generac has been installed since December 2011. The installer did not offer a service contract. I found a dealer who did offer a contract. He serviced my generator twice a year for about 6 years. After my last renewal (and paid) he went out of business along with my prepayment. I contracted another dealer. His plan included 4 visits per year. They did make 4 visits but did absolutely no work. They were at my home less than 10 minutes each visit. I was not home for the first two visits so I had no idea what service they were providing. As it turned out I didn't miss anything.

I contacted Generac to learn what maintenance they prescribe and to get recommendations for a reliable service provider. Generac only recommends to their dealers what the service should be. They do not certify the service plans of their dealers nor do they have any audit of what dealers do.

I settled on Charlottesville Generators. This dealer has a written service plan that details exactly what they do. Their plan very closely matches the Generac manual. Based on my prior unfortunate experiences I had a list of written questions which were promptly answered in writing. Unlike the other prior "service providers" they do not get paid in advance for the year but rather they bill after the service call is completed.

Today was my first service call with Charlottesville Generator. As promised, they called in advance to let me know they were coming. The technician (Eric) was very professional and it was immediately obvious he was exceptionally knowledgeable about my 36KW Generac. Eric was here nearly 2 hours. He corrected a number of items that were neglected by prior dealers. I am very pleased with my new service provider and I believe I received their routine level of service. I highly recommend Charlottesville Generator (434-326-4564).

★★★★★ 5.0 /5.0 Great Service

CM **from** Gordonsville **State :** VA

We couldn't be more pleased with the regular service call by your agent, Eric. He was friendly and went out of his way to be helpful. He answered all of my questions and was very professional. He is a credit to the business.

★★★★★ 5.0 /5.0 More than satisfied !!!

Happy1111 **from** Earlysville **State :** VA

I had a generator problem with a potential bad weather warning in the next few days. Fortunately I found out about Charlottesville Generators. They responded to my call quickly, fixed my problem and left me with a smile on my face! Eric, my service technician was great. He was professional, very knowledgeable and took the time to answer every question I had. It's great to get service from a company that really wants me to be a satisfied customer. Needles to say ....they passed with flying colors!

Criteria	Ranking					Project Ranking
	5	4	3	2	1	
Federal or State Mandates	Project is required by enforceable standards within the next year.	Project is needed to bring existing component up to enforceable standards.	Project is required by enforceable standards within the next two years.	Project is not required by any law but is required to continue operations at the current level. (example; system will no longer support software version).	Project is not mandated by law or any other requirements.	1
Efficiency	Project will directly increase employee efficiency by greater than 20%	Project will directly increase employee efficiency by greater than 10%	Project will directly increase employee efficiency by greater than 5%.	Project will make daily work easier, but not necessarily save time.	Project has not impanct on employee efficiency.	3
Economic Development	Project will directly provide jobs with in the Town.	Project will attract potential business within the Town.	Project will attract new residents to locate to the Town.	Porject will revitalize and improve areas within the Town.	Project has little or no impact related to economic development.	2
Budgetary Impact	Project will provide the Town with additional revenue.	Project will provide the Town with future budget savings.	After initial cost of project there will be no impact on the budget.	Without project cost of current operations could rise (example; maintenance cost due to age of current assets).	Project will continue to requrie additional funds to operate after completion (example; additional personnel).	3
Readiness to Proceed	Project is ready now. Money has been approved (by outside sources or grants), costs estimates have been received.	Cost estimates have been received and initial planning has begun. Project is ready to start once approved and funded by the Town.	No initial planing has taken place. However, planning and prep can take place once approved and funded.	Project will still not be ready to take place until future period in time even after approval and funding.	Project is nto needed until two or more years in the future.	4
Health/Public Safety	Failure to do project presents major risk to citizens or employees.	Project could increase safety or health concerns of citizens or employees.	Project could enrich quality of lives and health within the Town.	Project could have long term effects on health or safety that is unknown at this time.	Project has no impact on health or public safety.	4
Funding	100% of funding is being received from grants or other outside sources.	Increased tax revenue received from project will help recoupe initial cost.	Grants received but will require a Town "match" in funds less than 50%.	Grants received but will require a Town "match" in funds greater than 50%.	100% of funding will come from General/Water/Sewer Fund.	1

Request Form

Department/Agency: Police Department	**Justification Code:**
Project Title: Kawasaki (Side by Side)	**Priority: 1**

Description

1- UTV (Side by Side) This unit will be used for events and pulling our trailers. Will be very beneficial for patrolling parades and events. These vehicles are used by departments for search and rescue operations. We have areas that will make it very difficult to get to emergency situations without the assistance of other local agencies. The new bike trails are just an example of a possible area that will make it difficult to get to if we have a medical or lost person situation. The unit will have a dump bed for carrying items to the site. We will also be able to use the unit when we have work projects at the range. * Quotes are attached to the request form. Price includes unit markings and emergency lights which are not attached at this time.*

History Associated with Request

We requsted this vehicle last year for the 2020-2021 calendar year. We were approved for a 4-Wheeler on the 2019-2020 cycle, but I feel the 4-wheeler will be better suited for the maintance department.

Impact on Future Operating Costs

These vehicles are very low maintenance if they are properly stored and taken care of. This is a one time purchase that will last for many years and serve multiple purposes. Units usually come with a 1 to 3 year warranty.

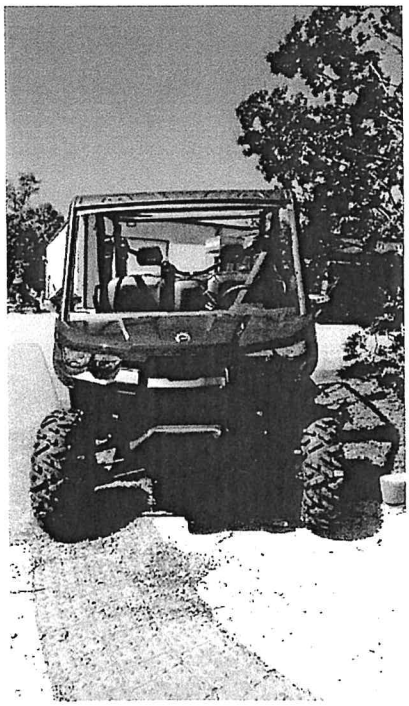
2019 CAN-AM® DEFENDER MAX DPS™ HD8 INTENSE RED

SELLING PRICE - $14,399.00

PLEASE CALL FOR BEST PRICES AS REBATES & PROMOTIONS CHANGE OFTEN.



INFORMATION

2019 CAN-AM® DEFENDER MAX DPS™ HD8 INTENSE RED

TAKE IT ON, BRING IT ALONG
Comfortable Dynamic Power Steering turns the Defender MAX DPS into a workhorse that makes your job even easier. Take those lightweight wheels and tires, adaptable storage, Visco Lok QE 4WD—and get it done.

Features may include:

- Your choice of 72 or 50 horsepower

HEAVY-DUTY ROTAX V-TWIN ENGINES
Defender MAX XT was engineered with your choice of two very capable true-work powerplant options: a powerful 72-hp Rotax HD10 V-Twin tuned for serious work and a serious 61 lb-ft of torque at lower RPMs for true stump-pulling power. The versatile, economical, and work-focused Rotax HD8 V-Twin delivers 50 hp and 50 lb-ft torque still rated to

tackle tough tasks.

- Reinforced heavy-duty HSLA steel chassis

BRAWN TO THE BONE

The HD8 and HD10 Defenders can pull at the top of their class with a towing capacity of 2,500-lbs (1,134 kg). A reinforced, automotive-like high-strength, low-alloy (HSLA) grade steel chassis is purpose-built to handle the strain of heavy-duty jobs. From surviving Defender Challenge test drives to our brutal Utility Test Cycle, it's clear we've built it tough for every situation you'll face.

- Dynamic Power Steering (DPS)

STEERING YOU RIGHT

Dynamic Power Steering (DPS) is tuned for utility while returning renowned Can-Am responsiveness for recreational riding. DPS improves steering feel in slow-speed working situations and in more technical terrain. It's also designed to offer less assistance at high speeds and more assistance at low speeds.

- 4-mode traction system

GROUNDED POWER

Visco-Lok† QE front differential combines a lockable rear differential and a 4-mode traction system for multiple choices depending on terrain or task. With separate front and rear toggle switches, drivers can select between a 2x4 open rear differential for tight turning and turf protection, a 2x4 locked rear for improved 2WD traction, a 4x4 open rear for more maneuverability in rugged terrain, and a 4x4 locked rear differential for maximum traction. The rear differential is gear-on-gear to the transmission for better response, no maintenance, better efficiency, and fewer components.

- Heavy-Duty rear suspension

TTA REAR SUSPENSION

Designed to handle both utility and recreational usage, the Defender MAX is equipped with a heavy-duty Torsional Trailing A-arms (TTA) suspension that returns a full 10-in. (25.4 cm) of travel for a smooth ride—no matter the terrain. Its architecture offers an optimal comfort and drivability in all conditions thanks to a design that minimizes camber change to maximize grip.

- Advanced VERSA-PRO bench seats

PICK-UP INSPIRED SEATING

Inspired by modern trucks, the dual VERSA-PRO bench seat is engineered as a practical 40/20/40 bench that can comfortably accommodate six adults with features like profiled corners to improve entrance/exit of the cab as well as a sturdy vinyl cover for improved wear resistance. The five passenger seats have integrated hooks on their undersides and can also be flipped up to improve onboard storage. Can-Am designers also added front and rear foldable armrests with cup holders—you're welcome.

- Open dash with removable toolbox and under-dash storage

STORAGE WHERE IT COUNTS

The Defender has a total of up to 16.2 US gal (61.3 L)—including a handy, removable and water-resistant 1.7 gal (6.3 L) toolbox, an industry exclusive—to carry tools and supplies directly where they're needed. In addition, we included 6 gal (23 L) of under-dash storage with an enclosed pocket, under-seat storage, and enclosed storage above the gauges.

Engine Size	567 cc
Price	$11,399.00

FEATURES

Features

HAUL MORE TO GET MORE DONE: We all know using the right tool for the job is key. With a massive 1,500 lb. towing capacity, 1,250 lb. of payload capacity, and 500 lb. cargo box capacity, the RANGER CREW 570-4 can help you tackle the toughest jobs to get more work done in fewer trips.

POWER THROUGH THE TOUGHEST JOBS: The powerful ProStar® 570 engine is purpose-built and tuned up to deliver best-in-class 44 HP. This engine, paired with Electronic Fuel Injection (EFI) and True On-Demand All Wheel Drive, will give you the power and traction when you need it through tough weather and tougher terrain.

THE BEST RIDE AND HANDLING AROUND: The RANGER CREW 570-4 handles the trails easily while you and your passengers experience serious cab comfort. With 9 in.. of front suspension travel, 10 in. of independent rear suspension travel and 10 in. of ground clearance, you're ready to tackle any trail or obstacle in your path.

READY TO WORK DAY & NIGHT: The RANGER CREW® 570-4 is designed with powerful headlights so you can work before dawn or after dusk. Utilize these lights to get a head start on the hunt early in the morning.

ADJUSTABLE TILT STEERING: Utilize the adjustable tilted steering to easily enter and exit the vehicle.

VERSATRAC TURF MODE: Unlocks the rear differential for easier and tighter turns that won't tear up your yard.

STANDARD 2 IN. RECEIVER HITCH: Connect your trailer to your RANGER with the standard 2 in. receiver and maximize the impressive 1,500 lb. towing capacity.

Criteria	Ranking					Project Ranking
	5	4	3	2	1	
Federal or State Mandates	Project is required by enforceable standards within the next year.	Project is needed to bring existing component up to enforceable standards.	Project is required by enforceable standards within the next two years.	Project is not required by any law but is required to continue operations at the current level. (example; system will no longer support software version).	Project is not mandated by law or any other requirements.	
Efficiency	Project will directly increase employee efficiency by greater than 20%	Project will directly increase employee efficiency by greater than 10%	Project will directly increase employee efficiency by greater than 5%.	Project will make daily work easier, but not necessarily save time.	Project has not impanct on employee efficiency.	
Economic Development	Project will directly provide jobs with in the Town.	Project will attract potential business within the Town.	Project will attract new residents to locate to the Town.	Porject will revitalize and improve areas within the Town.	Project has little or no impact related to economic development.	
Budgetary Impact	Project will provide the Town with additional revenue.	Project will provide the Town with future budget savings.	After initial cost of project there will be no impact on the budget.	Without project cost of current operations could rise (example; maintenance cost due to age of current assets).	Project will continue to requrie additional funds to operate after completion (example; additional personnel).	
Readiness to Proceed	Project is ready now. Money has been approved (by outside sources or grants), costs estimates have been received.	Cost estimates have been received and initial planning has begun. Project is ready to start once approved and funded by the Town.	No initial planing has taken place. However, planning and prep can take place once approved and funded.	Project will still not be ready to take place until future period in time even after approval and funding.	Project is nto needed until two or more years in the future.	
Health/Public Safety	Failure to do project presents major risk to citizens or employees.	Project could increase safety or health concerns of citizens or employees.	Project could enrich quality of lives and health within the Town.	Project could have long term effects on health or safety that is unknown at this time.	Project has no impact on health or public safety.	
Funding	100% of funding is being received from grants or other outside sources.	Increased tax revenue received from project will help recoupe initial cost.	Grants received but will require a Town "match" in funds less than 50%.	Grants received but will require a Town "match" in funds greater than 50%.	100% of funding will come from General/Water/Sewer Fund.	
Total for this project						19

Town of Amherst
Capital Improvement Project
Request Form

Department/Agency: Police Department	**Justification Code:**
Project Title: Police Vehicle (SUV)	**Priority: 1**

Description

1) 2020, Chevrolet Tahoe SSV - Police Base Vehicle: This quote is for the vehicle and the necessary equipment that will be needed to properly outfit the vehicle with emergency equipment. The Tahoe will allow us to have a vehicle that will allow us to have a vehicle in place to help tow sign trailers, message board, and flat bed trailer when we are setting up for events. The Ford Explorers we currently have do not have the tow capacity for certain weights. The extra space in the vehicle will help assist in carrying equipment and supplies to events we have in the town. The vehicle estimate is attached which is under the state contract pricing.

History Associated with Request

A new vehicle has been requested the last two C.I.P. calendar years. With adding this vehicle, I would certainly like to have one spare vehicle for the department. We are going to be adding three reserve officer's shortly to our staff and having the extra vehicle will certainly be very beneficial to our department. When we have a vehicle that needs repair or maintenance, we are having to switch out vehicles and at times swap all gear out. This past year we had multiple vehicle re-calls and vehicles were out of duty for extended periods of time for the repairs. The extra vehicle will help us down the road if this type of thing happens again. In year two I would like to request one additional Ford Explorer as we have three vehicles that are over 80,000 miles.

Impact on Future Operating Costs

It is my opinion that we have to get on some type of vehicle purchase plan. If we do not start to address the situation in the near future, we are going to be having to buy several vehicles at once. I listed below $42,000 as a estimated price for the complete package for the vehicle which includes all emergency equipment needed. The price will cover the install of all equipment.

Cost of Project

Planning/Engineering	Acquisition	Contruction	Equipment	**Project Total**
N/A	N/A	NONE	$6,500.00	**$42,000.00**

Proposed Financing for Project: County funding needed

Can the project be phased in over more than one year? (If yes fill in amount of money needed each year):

Year 1	Year 2	Year 3	Year 4	Year 5
$42,000.00	$45,000.00			

Notes (To be used by CIP Committee)

Information to Include

Justification Code:

landated – project is clearly and specifically required by a federal or state mandate or court ruling
emove hazards – makes possible the removal of an obvious or potential hazard to public health or safety.
laintains existing service – permits an existing standard of service to be maintained where decreases in services would otherwise have been necessary.
ıcreased efficiency – reduces operating costs.
ıcreased revenues – makes possible a net gain in revenues available to the City.
mproves existing service – makes possible an expansion or increase of an existing service or improvements in the standard of existing services.
lew service – makes possible the provision of a new service.
:onvenience – increases convenience of comfort.
)ther – (describe)

Priority Codes

1 Absolutely Required
2 Highly desirable, affects efficiency and effectiveness
3 Desirable
4 Marginally beneficial
5 Not justified

Description

What is needed? Chevrolet Tahoe 4WD Police Package

History Associated with Request

What is the reason for the request? If you are requesting equipment, is the current equipment out of date, obsolete or costing too much to maintain? What are the current costs of maintaining the equipment?

Impact on Future Operating Costs

Will this request decrease or increase future costs? Are additional personnel needed to accomplish the request or at the completion of the request? If it will decrease future cost please explain how.

Cost of Project

Please break down the costs of the project as indicated in the areas under this section.
Please indicate how you propose financing for this project. Are there grants to cover the costs associated with the project? Will County funds be required? Are there leasing options associated with the project?
If the project can be broken down into phases, please provide the amount that will be needed each year for the next five years.

Sign Ordinance Considerations for Electronic Changeable Copy Signs:

Amherst County:

907.04. Standards. All signs erected in the County of Amherst shall comply with the following standards, except as otherwise provided in the sign ordinance.

Illumination:

a. The light from any illuminated sign shall not cause direct glare into or upon any building or property other than the building or property with which the sign is associated.
b. No colored lights shall be used at any location or in any manner such that they could be mistaken for traffic-control devices.
c. Neither the direct, nor reflected, light from primary light sources shall be such as to create a traffic hazard to operators of motor vehicles on public thoroughfares.
d. Special exception permit required - An approved special exception permit is required for any sign to be located in an agricultural district that displays flashing or intermittent lights, or other lights of changing degrees of intensity, brightness or color.

Cumberland County:

Changeable copy sign means a sign that is designed so that characters, letters or illustrations can be changed or rearranged without altering the face or surface of the sign. Changeable copy signs may include signs with copy changed manually, or signs that contain internal lighting that changes to vary the contents of signs. Electronic changeable copy signs that have a cycle time of more than four (4) seconds are not considered animated signs.

(6) Any business sign may be illuminated by indirect lighting, the source of which is not directed toward the public right-of-way or adjoining properties, or by interior diffused lighting.

(7) Notwithstanding any provisions in this section to the contrary, the location, size or construction of all signs shall comply with all applicable state and federal laws, rules and regulations and compliance with state and federal laws shall be shown on sign permit applications.

Town of Altavista:

Prohibited:

(4) Simulated traffic signs or any sign which may be confused with or obstruct the view of any authorized traffic sign or signal.

(5) Flashing signs, except for time and temperature signs, and theater signs with special use permit. This shall not apply to a changeable copy sign as defined in section 86-555 and regulated in subsection 86-640(a)(6).

(6) Glaring signs, or signs with light sources of such brightness as to constitute a hazard to motorists or nuisance to adjacent property owners.

Development Standards for Permanent Signs:

(5) *Animated signs.* Animated signs shall meet the development standards set forth in this section for the applicable type of sign. No animated sign shall be permitted which is so constructed or placed that it diverts the attention of motorists to the detriment of safe travel on the streets of the town.

(6) *Changeable copy sign (electronic).* Electronic changeable copy signs shall meet the development standards set forth in this section for the applicable type of sign. No changeable copy sign shall be permitted which is so constructed or placed that it diverts the attention of motorists to the detriment of safe travel on the streets of the town. All such signs shall conform to the following standards:

a. The sign cannot flash but words or numbers may scroll in any direction.

b. There shall be no more than three lines of text on any sign face for an electronic changeable copy sign.

c. Text on the face of the sign shall remain in place for a minimum of four seconds.

d. Maximum size for electronic changeable copy sign is 45 square feet.

e. Electronic changeable copy signs shall comply with all Virginia Department of Transportation (VDOT) requirements.

f. Sign standards shall be as described in section 86-652.

Town of Blacksburg:

Prohibited:

(1) A sign which imitates or approximates an official highway sign or carries the word, "STOP" or "DANGER"; or any sign which obscures a sign displayed by public authority for the purpose of giving traffic instruction or direction or other public information.

(2) Flashing or revolving lights, or beacons intended to direct attention to a location, building or service, or any similar device otherwise displayed that imitates by its design or use, emergency service vehicles or equipment. Flashing or revolving lights that by their design or use imitate emergency service vehicles or equipment, placed within an establishment so as to be visible from a public right-of-way are also prohibited.

(9) A sign or illumination that causes any glare into or upon any building or land other than the building and land to which the sign is accessory.

(10) A sign that violates any provision of any federal or state law relative to outdoor advertising.

(11) Signs with moving components.

(12) Pennants, streamers, except as provided in Section 5504 (Temporary signs).

Sec. 5524 - Illumination of signs.

(a) Signs may be illuminated either through the use of backlighting or direct lighting provided the following standards are met:

(1) Information on any illumination proposed as part of a sign must be provided by the applicant on the sign permit application.

(2) No light from any illuminated sign shall cause direct glare into or upon any building other than the building to which the sign is related.

(3) No light from any illuminated sign shall cause direct glare on to any adjoining piece of property, or any adjoining right-of-way.

(4) Any sign containing electrical components shall conform to current UL, ETL, CSA, or ULC standards and display a label from one (1) of these recognized testing labs.
